Dm

Moving like the fog on the Cumberland River

I was leaving on her Delta Queen

And I wasn't ready to go, I'm never ready to go

Dm

Twenty-seven years of nothing but failures

And promises that I couldn't keep oh Lord

And I wasn't ready to go, I'm never ready to go

Let it ride, let it ride easy down the road
Let it ride, let it take away all of this darkness
Let it ride, let it rock me in the arms of stranger's angels
Until it brings me home
Let it ride, let it roll, let it go

Dm C Dm C F

Dm

Loaded like a sailor tumbling off a ferry boat

I was at the bar till three oh Lord

And I wasn't ready to go, I'm never ready to go

Dm

Tennessee's a brother to my sister Carolina

Where they're gonna bury me

And I ain't ready to go, I'm never ready to go

Let it ride, let it ride easy down the road
Let it ride, let it take away all of this darkness
Let it ride, let it rock me in the arms of stranger's angels
Until it brings me home
Let it ride, let it roll, let it go

A#

I wanna see you tonight, dancing in the endless moonlight

In a parking lot in the headlights of cars

A#

Someplace on the moon where they moved the drive-in theater

Where I left the car that I can't find but I still got the keys to

Let it ride, let it ride easy down the road

Let it ride, let it take away all of this darkness

Let it ride, let it rock me in the arms of stranger's angels

A#

Until it brings me home

A#

Let it ride, let it roll, let it go
